FEATURES

Adjustable wooden shelves

Reversible door

Digital temperature display

LED internal lighting

Triple glazed door, with anti-UV glass

BENEFITS

Stable Temperature

Our wine cabinets maintain a stable temperature to keep your wine in perfect cellaring conditions. This is thanks to triple glazed glass, insulated side panels and interactions between a compressor and thermostat. (Digital display varies by model)

UV Protected Dark Storage Area

UV rays negatively impact the quality of your wine. Our cabinets eliminate this threat by incorporating UV treated tinted glass doors, dark interiors and dimmed internal LED lights.

No Vibration

To protect the storage life and quality of your wine, our cabinets have been designed to create a vibration proof environment by including an externally housed compressor, rubber shock absorbers and vibration absorbing wooden shelves.
